SKILLS

Languages:	C++, JavaScript, C, PHP, JAVA, Python, HTML5
Frameworks:	Node.js, React.js, CSS3, Tailwind CSS, Express.js, Next.js, Django, MySQL, MongoDB
Tools/Platforms:	Git & GitHub, RESTful APIs, Postman, JSON, MVT Architecture
Soft Skills:	Problem Solving, Team Collaboration, Adaptability, Analytical Thinking

PROJECTS

Car Rental Website - Full Stack Web Application | [GitHub](#) Feb' 26 - Present

- Developed a **full-stack car rental web application** enabling users to browse vehicles, check availability, and complete bookings through an intuitive interface.
- Implemented **secure authentication, session management, and role-based access** for users and administrators.
- Designed **backend services** for rental validation, pricing computation, booking confirmation, and order status tracking with database consistency.
- Tech:** Python, Django, HTML, CSS, JavaScript, MySQL

Encrypted VOIP - Secure Voice Communication | [GitHub](#) Oct' 25 - Nov' 25

- Architected a full-stack secure VoIP application enabling **real-time peer-to-peer audio communication with low latency**.
- Integrated end-to-end encryption using **AES for data transmission and RSA for secure key exchange**, ensuring confidentiality and integrity.
- Built a **Node.js signaling server** to handle session negotiation, connection setup, and protection against eavesdropping and man-in-the-middle attacks.
- Tech:** React.js, Node.js, Express.js, JavaScript, WebRTC, AES, RSA

Plant Care Chatbot - Intelligent Plant Assistant | [GitHub](#) Mar' 25 - Apr' 25

- Conceived and constructed a complete **plant care assistance system**, delivering tailored plant monitoring and maintenance guidance.
- Incorporated rule-based decision mechanisms coupled with **AI-driven perspectives via the Gemini AI API** for improving the precision of care proposals.
- Constructed **RESTful backend services**, ensuring robust user session handling, plant profile storage, and programmed processes like watering notifications and development enhancement.
- Tech:** React.js, Node.js, Express.js, Python, Gemini AI API

TRAINING

CsePathsala – Advance Java with GUI | [CERTIFICATE](#) Jun' 25 - Jul' 25

- Completed Advanced Java with GUI training, focusing on **core Java, OOP principles, event-driven programming, and GUI development using JavaFX**.
- Gained hands-on experience in **application architecture, input validation, session handling, and exception management** for desktop applications.
- Applied learned concepts in the project “**Election Management System (Java-Based Voting Platform)**”.
